**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US Pat # 4,171,846 to Isleif et al.

Isleif et al discloses deflector assembly for an automobile sunroof comprising: a generally elongate visor member (5) for deflecting air having opposed end portions (Fig 1); a pedestal member mountable to each of said end portions (9 made of 11 and 12) to form said deflector assembly; and, means for securing (14) said pedestal (9 (11)) onto said automobile (1) to removably retain said visor member adjacent said sunroof (2).

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US Pat # 5,639,142 to Willey.

Willey discloses a deflector assembly (18) for an automobile sunroof (16) comprising: a generally elongate visor member (19) for deflecting air having opposed end portions; a pedestal member (70) mountable to each of said end portions to form said deflector assembly; and means (80) for securing said pedestal onto said automobile to removably retain said visor member adjacent said sunroof (16) (Figures 1-3).

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Pat # 5,782,527 discloses a mounting assembly for a sunroof deflector, US Pat # 4,750,782 teaches the use of tape around the edge of the deflector to secure it to the surface of the vehicle, US Pat # 4,934,754 discloses the use of a wind deflector and method of attachment.
